

Hussien Hassan Ali

MACHINE LEARNING ENGINEER

Cairo, Egypt • hussien.hassan6644@gmail.com • +20 112 069 7016 • LinkedIn

SUMMARY

A passionate and skilled Machine Learning Engineer with a strong foundation in designing, training, and deploying predictive models. Currently pursuing a Bachelor's in Information Systems at Cairo University, gaining deep technical expertise in algorithms, data structures, and statistical modeling. Eager to apply proficiency in data preprocessing, feature engineering, and neural networks to build intelligent, scalable solutions. Open to remote and freelance opportunities.

TECHNICAL SKILLS

Machine Learning: Supervised/Unsupervised Learning, Neural Networks, Feature Selection, PCA

Languages: Python, C++, SQL, Java

Tools & Frameworks: NumPy, Pandas, Scikit-Learn, TensorFlow, PyTorch, Git

PROJECTS

Human Activity Recognition & Health Monitoring (Python)

Developed and implemented machine learning models to classify human physical activities and monitor health metrics using sensor data, leveraging advanced feature selection and classification techniques.

Recipe Finder (HTML/CSS/JS + Django)

Built a full-stack web application that allows users to search and filter recipes using a dynamic frontend and a Django backend.

Vole Machine Simulator (C++)

Developed a low-level instruction simulator for educational purposes, demonstrating an understanding of system architecture and C++ programming.

EDUCATION

Cairo University | Cairo, Egypt

2023 - 2027

Bachelor of Science in Information Systems

Relevant Coursework: Machine Learning, Data Structures, Algorithms, Discrete Mathematics

LANGUAGES

Arabic: Native

English: Intermediate
